PROFESSIONAL SUMMARY

With 6 years of experience as an economist in the Finance and Real Estate sectors, I have transitioned to software engineering, completing a front-end development internship and two hackathons. I am currently a third-year Bachelor of Computer Science student at the University of British Columbia, with coursework completed in Data Structures & Algorithms and Introduction to Computer Systems.

SKILLS & LANGUAGES

Programming	C • C++ • Python • Java • JavaScript • HTML • PHP • Assembly
Software	VScode • IntelliJ • GitHub • MongoDB • MYSQL • phpMyAdmin • Bloomberg • CEIC • Wind • MS office
Statistics	R • EViews • STATA
Languages	English • Cantonese • Mandarin

SOFTWARE ENGINNERING EXPERIENCE & PROJECTS

24-7MedConnect – *HackCamp 2024 by nwPlus* 10th November 2024

Tech Stack : Gemini API, React, Express.js, MongoDB, PeerJS

- Offer suitable doctors from the database based on Gemini AI-generated feedback derived from user-input symptoms
- **AI-Driven Doctor Recommendations:** Processed user-input symptoms using Gemini AI to identify suitable medical specialties, then turn feedback into JSON format for database querying
- **Database Integration:** Integrated MongoDB with the server to enable AI-generated specialty search functionality and insertion of doctor profiles into the database
- **REST API:** Used Axios for data flow between frontend and backend, including creating doctor profiles on database and retrieving query results to web application based on symptoms input
- **React Component:** Constructed component to handle and display JSON results dynamically
- **Live Video Chat:** Partially implemented a real-time doctor-patient video communication with PeerJS

Web Development Intern – *Sing Sharp Limited, Hong Kong* May 2024 – June 2024

Tech Stack : JavaScript, React, Node.js, Next.js, Material UI, GitHub, Jira

- **Page Creation:** Developed 3-4 pages and data tables to handle promise objects returned from server
- **API Development:** Created 10 APIs based on server requirements and validated return results
- **Bug Fixes:** Addressed minor bugs to enhance user experience during web app navigation
- **Task Management:** Utilized Jira to report and communicate daily task with seniors and pushed codes to GitHub's branches
- **UI Development:** Constructed new React UI components to support future development needs
- **Component Refactoring:** Refactored React components to increase versatility and reusability

Coffee Tasting Platform January 2024 – April 2024

Tech Stack : Java, JUnit

- Designed a CRUD Platform to log bean purchase information and brew note reviews
- Enabled data persistency to retain and load data after relaunching platform
- Allowed users to interact platform via both terminal and GUI
- Created multiple tabs in GUI to make users toggle various platform functionalities

Online Banking System Database October 2023 – November 2023

Tech Stack : HTML, CSS, PHP and MySQL

- Developed data schema to layout the design of the online banking system
- Used HTML, CSS and PHP to connect phpMyAdmin (MySQL) for the banking database
- Created scripts to populate tuples, tables and relations
- Created GUI webpages for users to perform various queries on database
- Set up privileges to modify users permission on database

Registration Platform for NGO (Don't Go Hungry) – *HACKVAN 2023* 29th Sept – 1st Oct 2023

- Helped non-profit organization food bank Don't Go Hungry to launch a website of food support program registration
- Identified bottleneck of the registration process after meeting with Don't Go Hungry volunteers
- Developed scheme to assist setting up database
- Launched a UAT on site using Figma prototype and gathered users recommendation for further development
- Explored the function of Retool to connect to Google Sheets
- Used Google Apps Script to generate weekly report from Google Sheets

Hackintosh on AMD desktop August 2023

- Created customized EFI file using ProperTree to accommodate hardware specifications and multiboot OSes (macOS & Window)

EDUCATION

Bachelor of Computer Science - *The University of British Columbia* September 2024 – Current

- Completed: Data Structure & Algorithm (A), Intro to Computer System (B+) and Software Construction (A)

Associate of Science Degree in Computer Science - *Langara College* September 2023 – December 2023

- Completed: Java OOP, Database Systems
- Sessional GPA: 4.33/4.33

Master of Philosophy in Economics - *The Chinese University of Hong Kong* 2015 – 2017

- Specialization: International Finance, Labor Economics
- Thesis: The impact of immigration on the U.S. labour market: Evidence from 9/11 event

Bachelor of Social Sciences in Economics - *The Chinese University of Hong Kong* 2009 – 2012

- Second Class Upper Division (Minor in Mathematics)
- Exchange Program in *Nanyang Technological University, Singapore*

OTHER WORK EXPERIENCE

Economist – *Nanyang Commercial Bank, Hong Kong* January 2021 – July 2023

- Prepared top-down sectoral researches for the corporate banking division to explore new business opportunities
  - Covered topic based on 14th Five-Year Plan: Electric Vehicle Supply Chain, Cold Chain Logistics
- Drafted weekly market briefs to cover latest economic development in China, the U.S. & other major economies
- Wrote quarterly assets allocation reports to communicate with investment product & treasury division
- Prepared policy studies to drive bank business strategies and presented to management committee
  - The impact of Libor transition on the bank, Opportunities of return of US-listed Chinese stocks, Inflation risks on bank performance, Case study of DBS's digitalization & wealth management strategies & Strategic planning on green finance
- Wrote commentaries and provided forecasting on economic indicators for risk assessment to fulfill statutory regulation

Research Analyst (Macroeconomics) – *Sun Hung Kai Properties, Hong Kong* December 2018 – January 2021

- Prepared bi-weekly investment meeting reports for management board
  - Monitored and analyzed economic and political events, central banks policies, macro trends & assets performances
- Drafted virus, week ahead & commodities reports to monitor the latest macro development
- Built excel templates linking Bloomberg, CEIC & web sources to update key economic data
- Wrote daily global financial market summaries, news summaries & maintained in-house economic database
- Prepared memorandums for business & academic seminars

Assistant Researcher – *Hong Kong Policy Research Institute, Hong Kong* October 2017 – November 2018

- Conducted researches and provided policy recommendations on Hong Kong socio-economic issues
  - **Housing**: Identified hurdles faced by first home buyers and provided recommendations for home purchase
    - Published a policy research report -- Policies Supporting first-time Home Buyers (Feb 2018)
  - **CN-HK Economic Index**: Based on key industries to compile an index for policy recommendations
    - Provided a metric for policy makers to promote economic development of Hong Kong
  - **Innovation Technology**: Reviewed Hong Kong's STI policies and provided recommendations to improve KPIs
    - Conducted data extraction, cleansing and analysis of innovation and technology support programme (ITSP)
- Published commentaries on newspapers regarding policy recommendations
- Advocated regularly with scholars, political parties and relevant stakeholders regarding Hong Kong economy's issues

Research Assistant in Department of Economics - *The Chinese University of Hong Kong* June 2016 – August 2016

- Collaborated with postdoctoral researcher to investigate the design of *The Longitudinal Study of Australian Children*
- Performed factor analysis of cognitive and non-cognitive time use variables related to early childhood development

Teaching Assistant in Department of Economics - *The Chinese University of Hong Kong* August 2014 – July 2015
Mathematics Associate Teacher - *Kowloon True Light School* 2013 – 2014
Mathematics Teaching Assistant - *Yu Chun Keung Memorial College* 2012 – 2013
