EDUCATION

University of British Columbia

Bachelor of Computer Science — GPA: 3.95/4.33 or 85%

Vancouver, BC

Sep. 2024 – Apr. 2027

Chinese University of Hong Kong

Master of Philosophy in Economics

Bachelor of Social Sciences in Economics, Minor in Mathematics

Hong Kong

Sep. 2015 – Aug. 2017

Sep. 2009 – Aug. 2012

PROJECTS

Food Bank Registration Platform | *React, Django, PostgreSQL, JWT, GitHub Actions*

Apr. 2026

- Built a full-stack appointment booking platform for Surrey Food Bank, providing self-serve intake questionnaire, calendar-based booking, and email notifications
- Engineered double-slot booking with database row-level locking and ensure consecutive slot allocation for larger families
- Implemented secure authentication with JWT, password hashing, and email password reset; gated appointment booking behind questionnaire completion to enforce intake workflow
- Established CI/CD pipeline via GitHub Actions, enforcing merge blocking on passing Pytest, Jest + React Testing Library

Pet Healthcare Database | *React, Node.js, Express.js, OracleDB*

Apr. 2026

- Built a full-stack pet healthcare management system, modeling 15+ normalized tables across entities
- Designed ER diagram, relational schema and enforcing referential integrity through cascading deletes
- Developed 10 SQL queries covering JOIN, aggregation with GROUP BY & HAVING, nested aggregation, and division

Personal Site | *Framer Motion, Chakra UI, React Bits*

Jun. 2025

OOTDscribe | BCS Hacks 2025 | *Gemini API, Express.js, MongoDB, Tailwind, React Bits, ShadCN*

Mar. 2025

- Developed a AI-generated journal platform using user-input mood, stories, and images
- Integrated endpoints for front-end CRUD operations, enabling display, creation, and deletion of journal cards
- Created a responsive, user-friendly UI with landing page, light/dark mode, search functionality, and toast notifications
- Stored Base64-encoded images in MongoDB and reduced journal cards loading time by 30% using localStorage caching

Credit Card Default Detection | *Python, Scikit-learn*

Mar. 2025

- Built machine learning pipelines to predict credit card default risk on a 30k entries imbalanced dataset, achieving a recall score of 75.0% with logistic regression
- Optimized models (Logistic Regression, Random Forest & CatBoost) using pipelines, cross-validation and recursive feature elimination with grid search for hyperparameter tuning
- Improved model interpretability with SHAP analysis, identifying recent repayment status as top contributor to predictions

24-7 MedConnect | HackCamp 2024 | *Gemini API, React, Express.js, MongoDB, Amazon EC2*

Nov. 2024

- Offered suitable doctors from the database based on Gemini AI-generated feedback derived from user-input symptoms
- Processed user-input symptoms using Gemini AI to identify suitable medical specialties, then turned feedback into JSON format for database querying

Coffee Tasting Platform | *Java, JUnit*

Apr. 2024

- Developed a CRUD platform with a multi-tab GUI, enabling users to log bean purchase details, record brew note reviews

EXPERIENCE

Deputy Returning Officer *Election Canada*

Apr. 2025

Web Development Intern *Sing Sharp* | *React, Express.js, Next.js, Jira*

May. – Jun. 2024

- Developed 3 pages and data tables to display handled promise objects returning from server
- Created 10 APIs based on server requirements and validated return results
- Utilized Jira to report and communicate daily task with seniors and pushed reviewed codes to branches
- Constructed and refactored Material UI components to improve versatility and support future development needs

Economist *Nanyang Commercial Bank*

Jan. 2021 – Jul. 2023

- Conducted policy studies and industrial researches to drive bank business strategies
- Delivered weekly market briefs and quarterly assets allocation reports to facilitate internal unit decision making

Research Analyst *Sun Hung Kai Properties*

Dec. 2018 – Jan. 2021

TECHNICAL SKILLS

Languages: C, C++, Python, Java, JavaScript, TypeScript, HTML/CSS, PHP, Assembly

Developer Tools: VS Code, IntelliJ, Git, MongoDB, MySQL, phpMyAdmin, Amazon AWS

Statistics: R, EViews, STATA

Communication: English, Cantonese, Mandarin
